CONGRESS MAY BE KEPT IN SESSION BY REPUBLICANS

Minority Members Insist That Immigration Bill Be Passed Before Adjournment

UPSET PLANS MADE BY DEMOCRATS FOR CLOSING

Latter Anxious to Get to Their Home States on or Before September 1

(Associated Press by Cable)
WASHINGTON, D. C., Aug. 10.—A stand taken today by influential Republican senators may hold Congress in session after September 1, although the Democrats are exceedingly anxious to end on or before that date and had tried to get through by August 19. Republicans at a conference of senators this morning refused to accept the program outlined by the Democratic members, through their steering committee. The Democrats laid down their plans for putting through certain remaining measures and adjourning in three weeks. Those Republican senators who were inclined to agree with the Democrats were outvoted by the senators who demand action on the immigration measure.

This measure was originally coupled with the child labor law, on which the president insisted. Later the Democratic leaders decided that there was not time enough to put through the immigration bill and were ready to drop it but the Republicans insist on its passage.

WEST VIRGINIA'S FLOOD HORROR IS APPALLINGLY HUGE

Every Report Swells Figures of Deaths From Cloudburst Near Huntington

(Associated Press by Cable)
HUNTINGTON, W. Va., Aug. 10.—Twenty-three bodies have been recovered as a result of the terrible cloudburst which swept Cabin Creek yesterday. Returned rescue parties, after being out all night succoring the refugees, report that all of the mining villages have been swept away or devastated. People have taken refuge on the hilltops. Detachments of national guardsmen have been sent out to assist in preventing looting of bodies or buildings still standing. It is reported that a line man who returned from a trip to Miami Desota Valley estimated that 40 have been drowned in that section. Four hundred people on an excursion, mostly women and children, have been cut off on Main Horse Creek. From Little Horse Creek and Jarolds Valley come the report that the village of Little Horse, with 500 people, has been swept away and 75 lost. Governor Hatfield of West Virginia, who arrived in this city today for the purpose of attending the Republican convention, is doing all in his power to alleviate conditions resulting from the disastrous cloudburst early yesterday morning. He ordered special relief trains made up and rushed to the Coal River and Cabin Creek districts, where 5000 people are homeless and suffering, their houses having been wrecked and washed away by the deluge. Two companies of state militia have been called out. The guardsmen are taking tents to the stricken villages to be used as emergency shelters for those whose homes have been destroyed. Later in the day Governor Hatfield himself left for the afflicted section, anxious to render all possible aid and to satisfy himself that his orders are carried out to the best advantage and with the least delay. Nor were the cloudbursts confined to these districts. A similar catastrophe is reported at Charleston, where at least 150 people are said to have been drowned. Communication has been broken and it is impossible to secure details.

PRESIDENT NAMES NEW GOVERNOR, HARDING, ON FEDERAL RESERVE BOARD

(Associated Press by Cable)
WASHINGTON, D. C., Aug. 10.—President Wilson today designated W. P. G. Harding as a governor of the federal reserve board to succeed Charles Hamlin. Exceptions taken by A. W. Beeson to a decision by Circuit Judge Ashford, holding that he was maintaining a lottery through the operation of a slot-machine, were overruled by the supreme court today.

Confidence Is Alleged Broken On West Indies

(Associated Press by Federal Wireless)

WASHINGTON, D. C., Aug. 10.—Possibility of a "leak" in the senate by which an important state document, supposedly strictly confidential, was made a matter of publication, developed today when Senator Stone, chairman of the committee on foreign affairs, demanded an investigation of the means by which a confidential copy of the treaty under which the United States is to acquire the Danish West Indies reached the public. An abstract of the treaty has already been published and it was when this was given publication that the progress of plans to buy the West Indies from Denmark for \$25,000,000 became known. It is believed that the abstract was made from some one of 25 numbered copies sent to the senate by Counselor Poik of the state department, who at the same time requested secrecy until the governments had agreed to promulgate the treaty.

PASADENA HOTEL MAN RETURNS TO HONOLULU; DOES NOT GO NORTH

D. M. Linnard has another float for the tournament of roses parade in Pasadena New Year's Day. During his brief stay here today on his way home from the Orient in the Tenyo Maru with his daughter, Miss Dorothy Linnard, he visited several Honoluluans, including W. R. Farrington, telling them of Japan's offer for an addition to the coast city's parade. It will be remembered that Linnard, as manager of three Pasadena hotels, promised two floats for the carnival in Honolulu next spring, when he passed through here a few weeks ago on his way to Japan. At that time Linnard expected to return home by the northern route but says he wanted to see a little more of Hawaii. Linnard draws especial attention to what James Woods, manager of the St. Francis hotel of San Francisco, said about Honolulu during his recent visit here.

"I don't know what Woods' plans are," says Linnard, "but he is dead right when he says Honolulu's tourist opportunities are the finest in the world and that they will not be fully realized until there are better roads."

COLD WEATHER SUREST CHECK FOR EPIDEMIC

New York Physician Sees Little Hope Abatement of Cases While Heat Lasts

Cold weather will check infantile paralysis, probably nothing else. This first-hand information was received by the Star-Bulletin from a prominent New York City physician, Dr. Charles L. Lindley, visiting here. Dr. Lindley left New York before the ravages of the dread disease started, but has followed with professional interest all newspaper accounts.

The visitor is at the Moana hotel with Mrs. Lindley. They will probably leave for home in the Niagara. They came in the Matsonia.

When Dr. Lindley was asked what he knew about infantile paralysis he said: "Very little, and that is about all any physician knows, either here or abroad. So far as I know there is no cure for it."

The doctor scouts a statement made recently by a Chicago physician, visiting here, that possibly several deaths of summer complaint from the excessive heat had been credited to infantile paralysis in New York.

He says there can be no truth in this statement as the symptoms of the two diseases are not at all similar.

"However, heat certainly spreads the epidemic and aggravates individual cases," says the doctor, "and I believe cold weather will do much to reduce the fatalities."

Dr. Lindley has read with interest of the adenalin remedy, discovered by the Rockefeller Institute, but says he has heard of no diminution in deaths. It is said that the ravages are stopped when the medicine is injected into the spinal canal. It was discovered several years ago by a Japanese doctor, Takamima. It contracts the blood vessels.

At the regular monthly meeting of the Philatelic Society at the home of Capt. R. H. Peck Wednesday night, the members were favored with an address of interest by W. H. He showed a 13c blue and a 5c blue missionary stamp valued at \$3200; also a cover bearing four St. Louis "Bear" stamps, a very rare stamp. Members present were B. T. Beardmore, John Gribble, F. G. W. Cooper, A. P. Lino, C. J. Cooper, C. D. Wright, W. T. Monsarrat, Julius Unger, Lieut. W. L. Lyman, W. C. Weedon, T. Wood, E. M. Ehrhorn, Dr. Pugsley, Mr. Kaum, G. W. Marsilly and the host and honor guest.

OAHU WILL HAVE 16,877 TROOPS BY JULY, 1920

Table Sent Here By War Dept. Provides Nine Infantry Regiments for Island

STRENGTH TO BE MADE GREATER EVERY YEAR

Cavalry, Artillery, Coast Defense, Aero Corps, All Are Provided in Program

There will be 16,877 troops on Oahu by July 1, 1920. This is the approximate number provided by the War Department for the defense of these islands under the National Defense Act. A table received yesterday by mail from Washington at the Hawaiian Department shows what the total strength of the United States army in the Philippines, Hawaiian Islands and Panama Canal zone will be this year, in 1917, and until 1920, when the full strength will be reached.

When the fifth increment, July 1, 1920, is completed, the total garrison on Oahu will be nine infantry regiments of 1305 enlisted men each; one cavalry regiment of 840 men; one light field artillery, 859 men; one heavy field artillery, 873 men; 14 coast artillery companies of about 75 men each; one regiment of engineers of 654 men; one field battalion, signal corps, of about 244 men; one telegraph company, one aero squadron and two ambulance companies.

This will mean a total strength in the infantry arm here of 12,024 men, in the coast artillery corps of 1050, and in the other organizations of numbers ranging from 75 to 873.

The first increment provided by the National Defense Act went into effect this week, when the 32nd Infantry and the 9th Heavy Field Artillery were organized at Schofield Barracks.

July 1, 1917, the second increment will be added, consisting of one infantry regiment. The following year two more infantry regiments will be added; the third year, 1919, one infantry regiment. The fifth increment, July 1, 1920, is one infantry regiment, which will bring the total infantry strength on Oahu to nine regiments. There are now four.

TEUTONS ASSERT ALLY LOSSES IN AIR THE HEAVIER

German Official Despatches Declare Many Entente Fliers Were Shot Down in July

German official despatches late yesterday contained the news that the losses of the Allied air-forces for July were nearly five times those of the Teutons.

The official report yesterday follows: GERMAN HEADQUARTERS, Aug. 9.—It was reported yesterday that English and French attacks on the whole front of Fourceaux wood to the Somme had broken down. The British left 10 unrounded officers, 37 men and six machine guns in our hands; besides, their losses were heavy and bloody. Likewise, a strong British night attack from Ovillers, Barentin and Lepetit failed. Considerable French forces repeatedly attacked Thiaumont, Fleury sector, also Chaptre and the Mountain woods. The enemy was forced back with heavy losses by our fire, in several places by bayonets and counterattacks. The number of prisoners reached 350. Results of air combats for July: German losses in air combats, 1 missing and 1 captured. Total 19. Anglo-French losses are, 59 in air combats, 15 shot down from the earth, 6 landing within our lines, 1 landing for the purpose of leaving a spy. Total 81. Hindenburg's front: North of Point Kurland, our fire damaged and drove away a number of torpedo-boats, steamers and sailing ships. Russian attempts to cross Duena into East Friedrickstadt were frustrated. Strong patrols between Veslov and Narocz lakes were repulsed. Near the Shtshara front, artillery duels increased. Enemy's attacks in the vicinity of Bkrobova failed. Strong Russian attacks were repeated in Stochod section many times, but the waves flowed back under our artillery, infantry and machine gun fire. There is fighting south of Stobychva and Stochod and bending east toward Kovel and north of Kleselan. In heavy hand-to-hand fighting with far superior enemy forces our troops were victorious near Kuchary and Porskaya and Volka. Combats west of Luck decided in our favor. Hardy Austro-Hungarian troops counter-attacks took lost parts of positions east of Spelgv, and captured

BERLIN, Germany, Aug. 10.—Attacks by the Allies on the Somme were repulsed today.

ROME, Italy, Aug. 10.—Following their victory in the capture of all the defenses of Gorizia yesterday and the occupation of the city, the Italians are now threatening Trieste, the main objective of all the campaign on this front and the principal city of Austria's Adriatic littoral.

The army of the Duke of Aosta, which has done signal work in preparing the way for the present victory, is now pursuing the fleeing Austrians on the left bank of the Isonzo river. Cavalry is being thrown out to drive in the Austrian advance posts and heavy masses of Italian infantry are following at a rapid rate.

This advance down the Isonzo threatens Trieste, which is reported to be preparing for an offensive near the city.

Gorizia, occupied yesterday, is virtually undamaged by the bombardment to which it was subjected. The Italians did not use their heavy artillery to batter down defenses but employed strategy to take the city.

Before leaving the Austrians made an attempt to destroy their large military stores and many buildings, setting fire to the storehouses, but the Italians made such quick work of occupying the city that the fires were put out and most of the stores saved.

It is also reported from this front that the Italians have pierced the Austrian entrenchments northeast of Monte San Michele and have occupied Roschini.

A total of 12,000 Austrian prisoners has been taken in the last few days of fighting.

All the Gorizia defenses were yesterday topped with Italian flags.

The Italian artillery dislodged the Austrians, and the infantry then rushed the Austrian lines, while reinforcements by the thousand poured from underground passages and backed up the Italian rush.

French Progress North of Hem Wood
